Funny enough:  
We are always  
wrong.

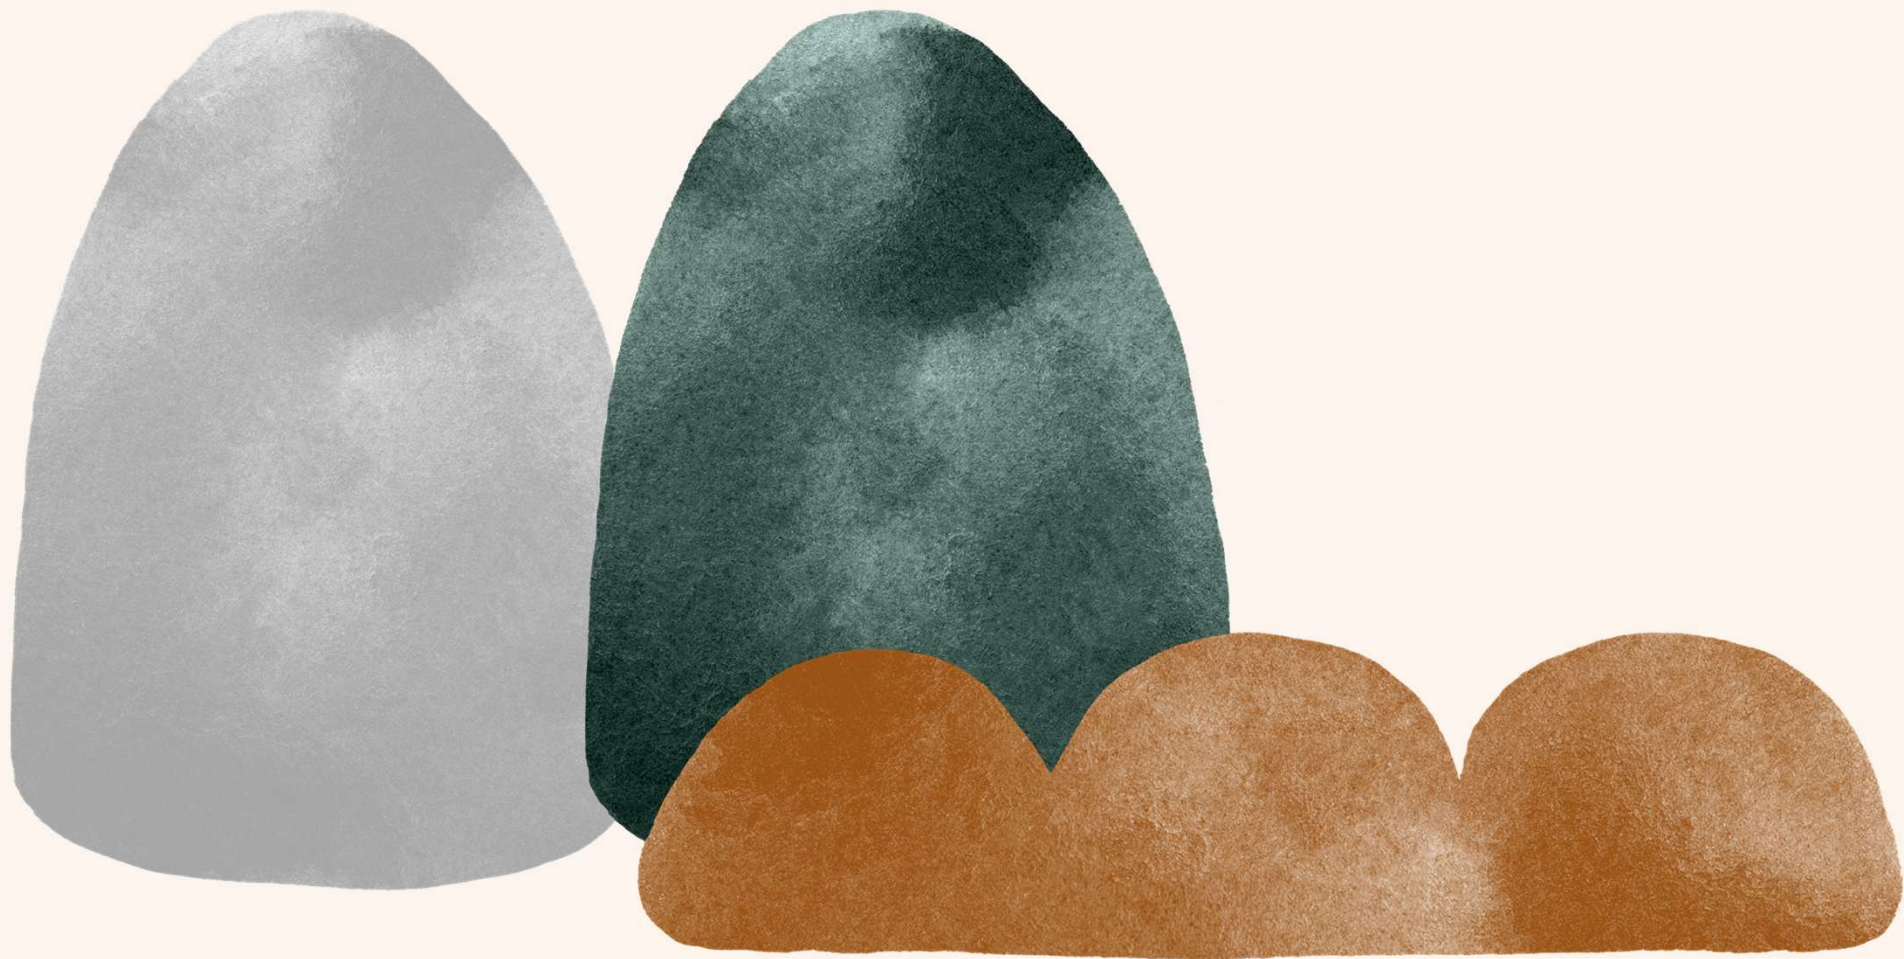

This is now.

# Forever and Always

👤 SharpButton943

uplifting aor rock

[Verse]

I've been searchin' for a love that's true  
A love that will carry me through  
Through the nights and through the days  
Together we'll find a way (ooh-yeah)

[Chorus]

Forever and always, we'll be together  
Through the storms, we'll withstand any weather  
Our hearts, like a flame that never dies  
Forever and always, side by side (ooh-yeah)

Who's got  
the power?

Forward!

The big risk:  
Settling for less.

Organic  
intelligence.

It's not about which artificial intelligence you are buying.

**It's about which organic intelligence you are hiring.**

Thank you!
